Education	Institute	Year	CGPA/%
Bachelor Of Engineering (B.E Electronics & Communication)	Chandigarh College Of Engineering and Technology	2021 - 25	6.19(till 6th SEM.)
Intermediate/+2	KB DAV Sr Secondary Public School	2019 - 21	91.8%
Matriculation	Hansraj Public School	2018 - 19	81.67%

PROFESSIONAL SUMMARY

I am a self-driven and meticulous B.E. student with skills in HTML, CSS, JavaScript, responsive web design, GSAP, and React.js. Successfully designed Pizza Delivery Web app, Usepopcorn and portfolio websites, and contributed to designing Apratim's (C.C.E.T's Annual Technical Event) Website. Interested in an internship to apply these skills while gaining experience.

INTERSHIPS

- **Afame Technologies**, *Web Development Intern* (Jun'24 - Jul'24)
 - Designed and implemented a personal portfolio website during a Web Developer Internship at Afame Technologies.
 - Conducted market research on web design trends and user behavior to create a responsive and engaging portfolio website.
 - Integrated GSAP (GreenSock Animation Platform) to create smooth animations, enhancing the overall user experience.
 - Gained experience in front-end development, writing clean and maintainable code, and optimizing web performance.
 - Strengthened knowledge of modern web development practices and responsive design techniques.

PROJECTS

- **Fast React Pizza** (Nov'24 - Jan'25)
 - Developed a **pizza ordering web app** using **React, Firebase, and React Router**, enabling a seamless **single-page application (SPA)** experience.
 - Implemented **user authentication** via **Google & GitHub**, allowing users to either retrieve past orders using their ID or store them locally if not logged in.
 - Designed a dynamic cart system for adding, updating, and removing items before checkout.
 - Integrated Firebase Firestore to handle real-time database operations, ensuring secure and efficient order management.
 - Link: nakul211-fast-react-appv2.netlify.app
- **UsePopcorn** (Jun'24 - Jul'24)
 - Developed a movie tracker app using React and **OMDB API**, featuring search, watchlist, and review functionalities.
 - Created an interactive movie-tracking platform that simplifies searching, saving, and reviewing movies for users, making it a go-to app for movie enthusiasts.
 - Achieved perfect Lighthouse scores (Performance: 100, Accessibility: 100, Best Practices: 94, SEO: 100), validating the app's efficiency, accessibility, and usability, providing users with a smooth experience on both desktop and mobile.
 - Link: nakul211-usepopcorn-reactapp.netlify.app
- **Mapty** (Feb'24 - Mar'24)
 - Built a workout tracker using JavaScript and **Leaflet API**, with an emphasis on analyzing geolocation data and customizing workouts based on user inputs.
 - Designed to help users log workouts efficiently and visualize them geographically, supporting users in setting fitness goals based on location and workout type.
 - Top Lighthouse scores (Performance: 99, Accessibility: 85, Best Practices: 96, SEO: 90) were achieved, demonstrating the app's effectiveness in performance and accessibility, enabling a smooth user experience and promoting fitness engagement.
